Software Engineer & AI Integration Engineer with 9+ years of experience delivering reliable, scalable, and high-performance web applications and AI-powered systems. Strong expertise in Angular, React.js, Node.js, FastAPI, JavaScript, TypeScript, Python, REST APIs, and cloud architectures. Proven background in banking, trading, healthcare, and enterprise applications. Experienced in LLMs, RAG pipelines, LangChain, OpenAI API, CI/CD, Docker, and AWS, with a focus on system reliability, maintainability, and operational efficiency.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, PHP, HTML5, CSS3, Bash / Shell Scripting

Frontend Technologies: Angular, React.js, Next.js, Redux / NgRx, RxJS, Material UI, Bootstrap, Responsive Web Design

Backend Technologies: Node.js, Express.js, FastAPI, Electron.js, RESTful APIs, GraphQL

Databases: MySQL, PostgreSQL, MongoDB, TypeORM

Cloud & DevOps: AWS, Docker, Kubernetes, CI/CD Pipelines, Windows Exe Installer, TeamCity

Testing & Quality: Unit Testing, Jest, Vitest, Code Reviews, Clean Code

AI / Modern Tech: OpenAI API, Anthropic Claude, Google Gemini, Large Language Models (LLMs), LangChain, LangGraph, LangFuse, LangSmith, AutoGen, MCP, RAG (Retrieval Augmented Generation), Semantic Search, Vector Databases (Pinecone / FAISS / ChromaDB), Prompt Engineering, AI Integration, CrewAI, GitHub Copilot, Cursor

Tools & Collaboration: Git, GitHub, Bitbucket, Jira, Agile / Scrum, Kanban, Swagger, Postman

Security & Compliance: OAuth 2.0, JWT Authentication, Secure API Design

Soft Skills: Cross-functional Collaboration, Stakeholder Communication, Problem Solving, Ownership & Accountability

WORK EXPERIENCE

Consultant

Capgemini Technology Services India Ltd

Bengaluru, India • 11/2021 - 05/2025

<https://www.capgemini.com/in-en/>

- Built and enhanced an enterprise-grade Admin Trading Application using React.js, Node.js and MongoDB delivering secure, scalable, and highly reliable banking operations with user management, RBAC, audit logging, advanced filtering, and export features.
- Designed and integrated AI-powered conversational assistants using OpenAI GPT, providing automated administrative support, trading insights, and issue resolution with enterprise-grade security.
- Implemented document-based question answering (Q&A) and knowledge retrieval systems using LangChain, ChromaDB, and OpenAI APIs, enabling context-aware search across compliance documents, trading logs, and internal policies.
- Developed AI-driven automation and research pipelines using LangGraph, enabling structured analysis, summarization, and reporting of trading and operational data with improved accuracy and consistency.
- Integrated natural language search and intelligent log analysis using OpenAI APIs, improving system usability, traceability, and operational visibility for banking stakeholders.
- Developed and implemented a banking-domain Trading application using Angular, FastAPI, and PostgreSQL enabling real-time market data access, price monitoring, buy/sell order placement, and end-to-end order management.
- Managed TeamCity-based CI/CD pipelines for build automation, artifact versioning, and multi-team releases while contributing across the full Agile SDLC (design to deployment), ensuring secure, reliable, and scalable high-quality releases.
- Tech Stack: Angular, React.js, Node.js, Express.js, FastAPI, TypeScript, Python, MongoDB, PostgreSQL, NgRx, Redux, REST APIs, HTML5, CSS3, Jest, Storybook, TeamCity, Bitbucket, GitHub, Jira, Agile, GitHub Copilot, LLM, RAG, OpenAI API

- Developed and maintained a scalable web-based Property Management platform using Angular and TypeScript, featuring custom form builders, tenant lifecycle management, lease administration, accounting workflows, and automated reporting.
- Led the development of a Project Management web application using Angular, enabling issue tracking, requirements management, test case management, and Agile/Scrum workflows across multiple teams.
- Designed and implemented a podcast and audiobook streaming platform using Angular, providing content publishing, episode management, and optimized admin interfaces.
- Built a service marketplace platform using Angular, connecting users with verified service providers for household and office services, including repairs, cleaning, laundry, and beauty services, with a scalable and responsive frontend architecture.
- Developed a healthcare web application using Angular, enabling online doctor appointment booking, medicine ordering, lab test scheduling, and real-time patient–doctor communication.
- Converted an existing full-stack web application into a cross-platform desktop solution using Electron.js and created a Windows EXE installer for third-party software distribution.
- Designed and developed a social media platform using JavaScript, PHP, and MySQL, enabling user profile management, social connections, and real-time content sharing with optimized frontend performance.
- Led frontend architecture and development for Property Management and Project Management systems, while contributing as an individual developer to media streaming and service marketplace platforms.
- Followed SDLC best practices within Agile/Scrum environments, performing code reviews, unit testing, REST API integration, and performance optimization, ensuring maintainable, secure, and scalable applications.
- Actively collaborated with product owners, designers, and backend teams using Jira and Bitbucket, contributing to stable releases and continuous improvement.
- Tech Stack: Angular, TypeScript, JavaScript, PHP, MySQL, Electron.js, REST APIs, HTML5, SCSS, Bitbucket, Jira, Agile

EDUCATION

Bachelor's degree in Information Technology

Anna University (Pavendar Bharathidasan College Of Engineering and Technology)

Trichirapalli, India

AWARDS & SCHOLARSHIPS

Received “Exceptional” rating at Capgemini for FY 2024–25.

CERTIFICATIONS

Advanced Javascript, Typescript Professional, Angular Advanced Master, React 18 - Udemy

06/2024

LANGUAGES & WORK AUTHORIZATION

Languages

English: C1 (Professional Working Proficiency), German: A2 (Learning)

Work Authorization

Authorized to work in Germany. No sponsorship required. Open to relocation within the European Union (EU).
